"I AM" DIVINE JUSTICE!

The Cosmic Moment has struck, Beloved Ones, when the Ascended Masters call you to Victory and Freedom in the Light! Every human being on the face of the Earth wants Divine Justice—and usually is busy demanding It for himself—but if he were to use the energy of his own Life with the same intensity, and demand It for every other human being on the Earth from the Great Source of Life, he, himself, would automatically have Divine Justice everywhere he moves. In order to receive Justice, you must understand the Life. You must know the Law of Energy and give obedience to Its Mighty Activity if you are to be in the position to either compel Divine Justice or to give It to your fellowman.

Have you ever tried to study yourself, or wanted to understand what it means to feel mastery over yourself, over circumstances, over energy and substance? Until you do this, you are not in a position to know what Divine

Justice means in the fullest sense of the word. Divine Justice is balance under the Great Law of Life; but that balance is not just a temporary balance of the results that you see in the physical world. All things have a former cause, and until you understand Life from the Realm of Cause, you will never be able to fully comprehend what Divine Justice means to you or the rest of mankind. Your Life is Light. It is energy. And within It is the power to control conditions everywhere you move, that they may render Divine Justice to you; but if you are to have It manifest in your own world, you must give it first! That is the Law of Life.

Many people do want to be Divinely Just. Many try to be sincere, but unless they understand what they are doing with their own Life energy, they do not realize how unjust they are to their own Life—the Source that has placed them here and that constantly supplies them with opportunity to produce Perfection. Divine Justice, so far as other people are concerned, should always be the inflexible rule of every straight-thinking human being's experience. Unless you give Divine Justice, you can never have It. Then observe what it means to take conditions of the outer world and call the Law into action to have Divine Judgment descend on destructive qualities, wipe them out of existence, and replace them by Eternally-sustained Divine Justice.

If there seem to be conditions in the outer world which really do not particularly belong to you personally, yet are filled with injustice—I mean by that, in this case, discordant conditions which are really unjust to Life—then you have the power and full authority, since you are Life, to call forth the Action of the "Mighty I AM Presence" and the Ascended Masters' Light Rays to pour into those conditions the Power of Light to compel Justice to be released to all that you contact.

This is the Inner Action of the Law. This is why every human being has the power to call forth Divine Justice everywhere he moves. Then why waste time and energy complaining about conditions that every one of us has the power to help correct through his own Call to his own "I AM Presence" and the Great Host of Ascended Masters who stand ready and All-Powerful to correct them. From the Inner standpoint, every human being is today experiencing the results of causes that he, himself, has set into action by his own use of Life's energy. That is not very flattering to any of us when we are experiencing discord or unhappiness; nevertheless, Life is not unjust. Life—the Supreme Power and Perfection of existence—gives the Fullness of Itself, Its Limitless Energy, which is wholly Pure and Perfect when it comes into our minds and bodies.

Life gives us a body, the attributes of intelligence, the power of discrimination, the opportunity in the physical world to use all of these gifts and attributes to create Perfection, that we may be happy, and then to pour that Perfection and Happiness into the rest of the Universe. But since mankind for centuries have forgotten the Divine Way to live Life, have forgotten the purpose of human experience, and have forgotten the Great Law which they must obey in order to have Perfection, then this Ascended Master Instruction of the "I AM" had to come forth to give every human being the opportunity—if he would make the effort to understand his own Life, cooperate with its Law, release its Power, and be an Ambassador of Divine Justice, the full Power and Perfection of Life wherever he moves in the outer world, to release the same Perfection to his fellowman that the Ascended Masters are pouring to him through his own knowledge of the "I AM."

Divine Justice must someday take Its Reign once again upon the Earth! During the first two Golden Ages on this planet, a Great Cosmic Being who is known as the Goddess of Justice ruled Supreme throughout the world; and during that time there was no such thing known as war, crime, destruction, or unhappiness of any kind, and no lack of any good thing. At the end of the Second Golden Age, that Great Cosmic Being withdrew deep into the Heart of the Great Silence, because mankind became so rebellious in the feeling to obedience to the Law of Life in the Conscious Control of the energy flowing through the human body, that the Great Goddess of Justice no longer held Her Dominion in the affairs of the outer world. And it was from then on that war became the occupation of many of mankind throughout the centuries.

That Great Cosmic Being, the Goddess of Justice, has once again come forth just recently into the outer activities of mankind and is again rendering Her Assistance in bringing Divine Justice into the activities of humanity in all industries, in all of government, and to the people who serve the constructive way of Life. But this time She comes forth in the Power and Authority that commands and demands obedience to the Law of the constructive way of Life. The longer human beings have been let to go in their creation of discordant conditions, the worse they have gotten, until today we have a world on the verge of war urging all the rest of mankind to join those nations who are already destroying each other, using the most destructive means possible to destroy human beings' bodies and interfere with the Life Stream's experience of the humanity of Earth. For what? Even the individuals who create war do not know themselves why; but since they have directed so much of the energy of their own life stream into destructive activities, the recoil of that is like a whirlpool.

And it is swinging about themselves now, about to draw all wholly destructive individuals back into the vortex of their own human creation where it will take its toll.

In the not-far-distant future, the Power of Divine Justice will again reign in the Hearts and minds of all human beings. Everyone is ready enough to demand Divine Justice for himself, but few are as ready to demand It for the rest of mankind or to give It on every occasion. When you begin to understand this Law of the "I AM," you will realize that in releasing Its Energy and Life into any activity, you can charge that Light with the especial Quality and Action of Divine Justice. You can charge It with the Ascended Masters' Directing Intelligence. You can send It forth to perform a service for you, and that service will be performed.

Again we say to the public: Don't believe us—prove us! Use the Law and have Its Blessing. You can only prove this Law to yourself by calling It into action into those conditions which are your problems. And when the solution of your problem comes about after you have made the Call, be honest enough with yourself and with Life to admit that it was the Action of this Law that produced the result for which you call. As we look around at the conditions of the outer world today, if you allow your human sympathy to connect with destructive activities, you will as definitely draw yourself into them as if someone threw a lasso around you and pulled your physical body into the midst of that condition, because through your attention, your energy flows to connect you with that upon which your attention rests. And when you allow your attention to connect with destructive conditions of the outer world, you are in agreement with them, in so far as the vibratory action of the energy in your feeling world is concerned.

You may resent or rebel against the injustice or the imperfection of the condition, but your feeling about it connects you with it; and in that connection its quality flows back into you. This is why, if you are to have Divine Justice, you must raise your attention from the human to the Divine, and hold it upon the only Power in the Universe that can ever give you Divine Justice. And that is the Power of Light.

"The Light of God Never Fails!"

"The Light of God Never Fails!"

"The Light of God Never Fails!"

And the "Mighty I AM Presence" is that Light!
